Summary

Skilled in recognizing real problems, grounded in user and product research. I follow an agile, iterative design process, driven by usability testing and continuous refinement, to ensure solutions meet both user needs and business goals. Collaborative and open to feedback, I thrive in team environments where diverse perspectives strengthen the final design.

Skills

- **Tools:** Figma, Photoshop, Illustrator, InDesign, HTML/CSS, JavaScript, After Effects
- **Soft skills:** adaptability, collaboration, communication, curiosity, growth mindset, problem solving
- **Methods:** accessibility, agile, journey mapping, usability testing, user flows, competitor analysis

Experience

BARISTA / BARTENDER | 05/2023 - 04/2025

Aperture Coffee Bar - Vancouver, British Columbia

- Managed customized orders and adapted to real-time user needs, sharpening the ability to quickly understand and respond to user preferences.
- Worked closely with a team while building strong communication skills, adaptability, and a mindset that values feedback.

SALES ADVISOR | 05/2022 - 08/2022

COS - Vancouver, British Columbia

- Analyzed customer behavior patterns and purchase data to identify real problems affecting conversion rates and customer satisfaction.
- Learned from colleagues with different specialties, such as inventory management, visual merchandising, and customer service, to create more comprehensive solutions.

RETAIL SALES ASSOCIATE | 09/2021 - 08/2022

American Eagle Outfitters - Vancouver, British Columbia

- Continuously adjusted merchandising approaches based on daily sales data and customer feedback, similar to agile sprint retrospectives.
- Organized product categories and store sections to create intuitive navigation paths for customers.

Education and Training

British Columbia Institute of Technology - Vancouver, BC | New Media Design And Web Development

Digital Arts/ Media And Design, 05/2024 - Present

FLUI Hackathon

- Led a fast-paced 72-hour website redesign for a real client alongside a multidisciplinary team, delivering a functional and user-centered solution under tight deadlines.
- Applied Agile practices to manage project schedules and collaborated with teammates to align design decisions with client goals and brand identity.
- Facilitated a client meeting, asked targeted design questions, and gathered feedback through open collaboration to ensure the final design met business and user needs.

MedSpeak App

- Led end-to-end product design for an AI-powered app that translates everyday symptom descriptions into medically accurate language across multiple languages, addressing real communication gaps for non-native English speakers.
- Conducted user interviews and usability testing with diverse participants, resulting in refined user flows, improved onboarding clarity, and a multilingual voice interaction feature that enhanced accessibility and cultural inclusivity.
- Gathered feedback through usability testing and made continuous improvements by adjusting key functions, removing unnecessary features, and simplifying the UI and branding to create a more intuitive experience that helps patients feel confident and supported.

Babel App

- Researched safety concerns of minority users through surveys and interviews, uncovering key needs around visibility, control, and trust in emergency situations.
- Created user journey maps and refined the UI based on usability testing to improve clarity, ease of use, and navigation under stress.
- Built high-fidelity prototypes that focused on accessibility and included smart emergency features, making the app more inclusive and empowering for users in vulnerable situations.
