

YUNGI CHO

 [LinkedIn](#) |  [Portfolio](#) |  Vancouver, BC |  yungicho8@gmail.com

SUMMARY

- **Purpose-driven UX/UI Designer** crafting inclusive and intuitive digital experiences that make everyday life easier.
- **Blending business acumen with human-centered design**, leveraging user research, accessibility practices, and storytelling to deliver impactful solutions for real-world challenges.
- **Skilled in end-to-end product design** – from wireframes and high-fidelity prototypes to responsive front-end development (React.js, Tailwind CSS, HTML/ CSS/ JavaScript) ensuring both usability and technical feasibility.

EXPERIENCE

Web Designer & Developer | Aperture Coffee Bar | Vancouver, BC | July 2025 – Present

- Redesigned and modernized the café's website, boosting online visibility and improving event booking engagement by creating a streamlined user flow.
- Implemented responsive layouts and optimized site navigation, leading to improved customer access to seasonal menus and promotions.
- Designed digital assets and integrated commerce features, increasing customer interaction and supporting revenue growth.

PROJECTS

MedSpeak – AI-Powered Medical Translation App

- Designed an AI-powered app to improve healthcare communication for non-native speakers, directly addressing language and accessibility gaps in clinical settings.
- Conducted user testing with accessibility tools (Dark Reader, ChromeLens), uncovering UX pain points and improving usability for partially sighted users.
- Delivered complete design assets (wireframes, prototypes, high-fidelity UI in Figma), ensuring medical accuracy while prioritizing clarity and accessibility.

FurryTales Pet – Pet Snack Brand E-Commerce Website (Hackathon Project)

- Designed and prototyped a full e-commerce website for a pet snack brand during the FLUI Hackathon, enhancing product discovery and purchase flow.
- Led brand storytelling and UI design, building a cohesive identity and intuitive shopping flow that resonated with pet owners.
- Collaborated in a fast-paced hackathon environment, producing a polished prototype and presentation that was recognized for creativity and usability.

SKILLS

- **Design:** Inclusive Design, Accessibility, UX Research, Wireframes, Prototypes, Visual Storytelling, Figma
- **Development:** HTML, CSS, JavaScript, React.js, Tailwind CSS
- **Tools:** Adobe Creative Suite, Figma, Notion, GitHub, After Effects, Premiere Pro, Canva, Squarespace, WordPress, ChatGPT, Claude AI, Make
