

Summary

- Purpose-driven **UX/UI designer** crafting accessible, empathy-driven experiences that make everyday life easier.
- Blending business acumen with human-centered design, leveraging user research, accessibility practices, and storytelling to deliver impactful solutions for real-world challenges.
- Skilled in end-to-end product design, from wireframes and high-fidelity prototypes to responsive front-end development ensuring both usability and technical feasibility.

Experiences

Burst Creative Group

September 2025 to Current

Product Designer (Intern)

New Westminster, British Columbia

- Collaborated with developers and designers to **design and refine website interfaces** for clients, ensuring accessibility, usability, and brand alignment.
- Designed **responsive mobile versions** from redesigned website layouts to enhance user experience and maintain visual consistency across devices, using Figma.
- Created **mockups and App Store screenshots** to support the export and launch of the mobile app version for client projects.
- Produced client presentation decks and marketing collateral using **Adobe Photoshop, InDesign, and Illustrator**, supporting brand storytelling and visual communication.

Aperture Coffee Bar

July 2025 to Current

Web Designer

Vancouver, British Columbia

- **Leading the website redesign** to improve usability, event promotion, and visual branding.
- Conducting **client meetings**, setting design schedules, and prioritizing features based on target users' needs.
- Collaborating with a small design team to translate research into **wireframes, UI components, and responsive layouts**.

Featured Projects

MedSpeak App- Product Design | BCIT, June 2025

- Led end-to-end product design for an AI-powered app that translates everyday symptom descriptions into medically accurate language across multiple languages, addressing real communication gaps for non-native English speakers.
- Conducted user interviews to improve app accessibility and user engagement.
- Gathered feedback through usability testing and made continuous improvements by adjusting key functions, removing unnecessary features, and simplifying the UI and branding to create a more intuitive experience that helps patients feel confident and supported.

FurryTales Pet – E-commerce Website Redesign | FLUI Hackathon, Feb 2025

- Led a 72-hour redesign of a real client's online store, improving navigation, product layouts, and new

branding.

- Applied agile design sprints and facilitated client feedback sessions to align with brand identity and user needs.
- Delivered a user-friendly shopping experience that supported business goals and increased usability.

Skills

- **Tools:** Figma, Adobe Creative Suite, After Effects, Premiere Pro, Canva, Squarespace, and WordPress
- **Design:** inclusive design, accessibility, UX research, wireframes, prototypes, visual storytelling, Figma
